MARCUS VANCE
DevOps & Cloud Infrastructure Engineer
Email: marcus.vance@ops.cloud | Phone: +1 (555) 456-7890 | Location: Austin, TX

PROFESSIONAL SUMMARY
Experienced DevOps Engineer with 3+ years hands-on experience designing automated CI/CD pipelines, managing Kubernetes container clusters, writing Infrastructure as Code (Terraform), and optimizing AWS cloud architecture.

TECHNICAL SKILLS
- Cloud & Virtualization: AWS, Amazon Web Services, Azure, Docker, Kubernetes, K8s, Helm
- Infrastructure as Code: Terraform, Ansible, CloudFormation
- CI/CD & Automation: GitHub Actions, Jenkins, GitLab CI, ArgoCD, Bash, Shell, Python
- Monitoring & Web Servers: Prometheus, Grafana, Nginx, Linux, Unix, Ubuntu, Microservices, System Design

WORK EXPERIENCE
DevOps Engineer | CloudOps Solutions (2022 - Present)
- Designed and automated multi-region Kubernetes (EKS) container clusters serving 1M+ daily requests with 99.99% uptime.
- Provisioned enterprise cloud infrastructure using Terraform and Ansible, reducing environment creation time by 75%.
- Constructed multi-stage CI/CD pipelines using GitHub Actions, Docker, and ArgoCD for zero-downtime deployment.
- Implemented real-time system metric monitoring dashboards and alerts using Prometheus and Grafana.

Junior Cloud Engineer | ServerScale (2020 - 2022)
- Maintained Linux production servers, configuring Nginx web servers, reverse proxies, and automated Bash scripts.
- Migrated legacy on-premise application workloads into AWS cloud infrastructure.
- Scripted automated database backup routines and IAM security policies.

EDUCATION & CERTIFICATIONS
- Bachelor of Science in Information Technology | Texas A&M University (2016 - 2020)
- AWS Certified Solutions Architect - Associate (2022)
- CKA: Certified Kubernetes Administrator (2023)
