ALEX MERCER
Senior Machine Learning Engineer
Email: alex.mercer@email.com | Phone: +1 (555) 234-5678 | Location: San Francisco, CA

PROFESSIONAL SUMMARY
Results-driven Machine Learning Engineer with 3+ years of hands-on experience designing, training, and deploying scalable deep learning and NLP models in production. Expertise in Python, PyTorch, Scikit-learn, and MLOps cloud pipelines on AWS.

TECHNICAL SKILLS
- Programming: Python, C++, SQL, Bash, R
- Frameworks & Libraries: PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, OpenCV, NLTK, spaCy, Hugging Face
- Cloud & DevOps: AWS, Docker, Kubernetes, CI/CD, Git, Linux, REST API
- Data & Methodologies: MLOps, Deep Learning, Natural Language Processing, System Design

WORK EXPERIENCE
Senior Machine Learning Engineer | TechCorp Inc. (2022 - Present)
- Designed and deployed transformer NLP models serving 500K+ daily requests with 99.9% API uptime.
- Built end-to-end MLOps deployment pipelines using Docker, Kubernetes, and GitHub Actions on AWS.
- Optimized PyTorch model inference latency by 35% using TensorRT quantization and ONNX runtime.

Data Scientist | DataLab Analytics (2020 - 2022)
- Developed predictive customer churn models using Scikit-learn and XGBoost, achieving 91% predictive accuracy.
- Processed large-scale tabular datasets using Pandas, NumPy, and SQL queries.
- Conducted statistical A/B testing for recommendation engines, boosting retention by 18%.

EDUCATION
Bachelor of Science in Computer Science | University of California (2016 - 2020)

PROJECTS & CERTIFICATIONS
- Real-Time Sentiment Analysis Engine: Built an NLP web app using PyTorch, FastAPI, and Streamlit.
- AWS Certified Machine Learning Specialty
